(Chairman of ANTOR-JAPAN)

Toast by
Mr. Tadashi Shimura
(President of JATA)

GENERAL MEETING Vol. 04

ANTOR-JAPAN members exchanged their country's situation with the Covid-19 and their visions for the next seasons according to the themes below (agenda):

- 1) Chairman's remarks
- 2) Situation in each country
- 3) Impact of each country's fam trip
- 4) Impact of the inflation tax rate increase
- 5) Sustainable Tourism Model in each country
- 6) ANTOR-JAPAN activities 2022: Global Food Design Competition 2022

The situation worldwide has been improved slowly and started to open the borders and the restrictions will become lighter, like Portugal which decided to finally allow travelers from Japan. The lifestyle with the covid-19 is normalizing little by little. Many of the countries were optimistic about tourism in the next seasons, by planning fam trips, organizing events etc. People have started to traveling more, so an increase of inbound is expected, hoping that the PCR test rules on arrivals in Narita will be over by June.

Overall, all the members were happy to meet physically each other to exchange their information since the last gathering, which was more than six months ago, and a lot of positive news were shared during the general meeting.

PHOTO SESSION

ANTOR-JAPAN NETWORKING PARTY 2022
